# SEED LIST

---

---

The seeds listed here are fresh seeds gathered during the 1933 season. We sell only fresh seed, and will have a new list in the fall which will include essentially the same material as that included in this list with such changes as may be necessary and such new items as we will be able to add. We would call especial attention to our California iris seed which has been carefully selected from especially beautiful flower forms in a wide range of unusual colors. We hope next fall to be able to list this seed in separate varieties and colors. The 1934 seed list will be sent upon application.

Price 20c per packet
